

BOSS[®] Foiling, Spot UV-style effect & Holographic films.

Foiling onto Laminated Stock:

Step 1 Background Image

1

Print your background image. This should include all parts of your design that you **do not** want to Foil or Spot UV.

Step 2 Laminate

2

Laminate your background image with your desired laminating film. The film must be **Corona Treated**.
(Contact us for details)

Step 3 Foiling Image / Text

3

Feed your laminated sheet back through your printer and print the required image/text you wish to foil or spot UV onto it. Your foiling image must be set as 100% black (C:0, M:0, Y:0, K:100) and you will need to print as **Grayscale on your printer settings**.

For a spot UV image the print can be any colour or a mixture of colours.

Step 4 Foil or Spot UV-style

4

You can now feed your print back through the Matrix. The foiling film will adhere to the black toner/ink. Spot UV-style film will adhere to the toner/ink, whatever colours have been used.

Foil is available in various colours. Contact us for full details.

Vivid Laminating Technologies Ltd

St George's House, Whitwick Road, Coalville, Leicestershire LE67 3FA England

0845 1 30 40 50 sales@vivid-online.com

Foiling onto Unlaminated Stock:

Step 1 Print Image / Text

1 Edit your image you wish to foil as a solid 100% black.
Print this as Grayscale on your printer settings.

Step 2 Foil Image / Text

2 Feed your print through the laminator with the foil loaded on the Matrix.

Step 3 Print your image

3 Print the remaining image onto your print.

Printable Foils - Creating a metallic effect:

Step 1 Print Image

1 Edit your image to be a solid black.
For example to print a Zebra image, print the silhouette of it in 100% black.

Step 2 Foil Image

2 Feed your print through the laminator with the foil loaded on the Matrix.

Step 3 Print your image

3 Print the whole image in CMYK over your foiled block colour.
This will create a metallic effect.

This technique costs just a fraction of the original foiling process.

Foil is available in various colours. Contact us for full details.
